

YASH PATEL

Web Developer | Frontend Developer

Surat, Gujarat, India | 📞 9427836272 | ✉️ patelyashtech28@gmail.com | <https://github.com/yash2816>

PROFESSIONAL SUMMARY

Dynamic Computer Engineering graduate with full-stack experience across web and mobile ecosystems (JavaScript, HTML, CSS, Dart, Flutter). Proven track record delivering end-to-end solutions, including society, hospital management, and e-commerce platforms. Actively utilizes Google AI Studio, Gemini, and ChatGPT to enhance application appeal, streamline UI/UX workflows, and build sophisticated, responsive software tailored to real-world needs.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Responsive Web Design, Modern UI/UX Implementation

Mobile Development: Flutter, Dart, Android Studio, Material Design / Material 3

Tools & Technologies: Git, GitHub, VS Code, XAMPP, Android Studio

INTERNSHIP EXPERIENCE

Web Development Intern | Leaf Drive LTD.

JAN 2025-APRIL 2025 | 3 Months

- Contributed to the design and development of web-based application features, working across frontend components.
- Built and tested functionality using JavaScript, HTML, and CSS.
- Collaborated with team members on debugging, code review, and version control workflows using Git and GitHub.

PROJECTS

SocioSecretary — Society Management System

PHP, MySQL, HTML, CSS, JavaScript

- Developed a full-featured society management platform enabling secretaries and administrators to manage residents, visitors, and complaints through a centralized dashboard.
- Implemented city- and area-wise society management along with employee/watchman-related functionality, secure login and authentication, and a MySQL database schema for resident, complaint, and visitor records.
- Designed a responsive dashboard UI for admins to monitor and manage day-to-day society operations.

Hospital Management System

HTML, CSS, JavaScript, PHP, MySQL

- Built a web-based hospital management system with admin login and a centralized dashboard for daily operations.
- Developed patient and doctor management modules backed by a MySQL database for structured record-keeping.
- Implemented database-driven pages using PHP and MySQL to create, update, and retrieve patient and doctor records.

Vamanya — Jewellery E-Commerce Website & Flutter App

PHP, MySQL, HTML, CSS, JavaScript, Flutter, Dart

- Developed a full-stack jewellery e-commerce platform with product listings, categories, and detailed product pages using PHP and MySQL.
- Built inventory, customer, and order management modules to support end-to-end e-commerce operations.
- Integrated REST APIs to connect a Flutter-based mobile app with the web backend for product browsing.
- Designed the Flutter app's product-browsing experience, extending the platform's reach from web to mobile.

Employee Management / Attendance Application

Flutter, Dart

- Built a Flutter-based employee management app featuring an employee dashboard, profile, and organization information sections, with a swipe-based Punch In/Punch Out interaction, working-hours tracking, leave application, and a calendar view.
- Developed additional modules for salary slips, notifications, and document management, handling state across multiple interconnected screens.

Student Management Application (StudentVault / EduNest / SwiftSMS)

PHP, MySQL, HTML, CSS, JavaScript

- Developed a student management application supporting student login, attendance tracking, results, and a student dashboard for viewing academic information.

Personal Portfolio Website

HTML, CSS, JavaScript

- Designed and built a responsive personal portfolio website to showcase projects, technical skills, and developer profile.
- Implemented a clean, modern UI to present experience and project work in an organized, easy-to-navigate layout.

EDUCATION

B.Tech in Computer Engineering | Bhagwan Mahavir University

Completed Graduation: 2026

[CGPA – 6.05]
